Introduction

Background

Mid Ulster Policing and Community Safety Partnership (PCSP) is a statutory body established under the Justice Act Northern Ireland 2011.

The aim of the PCSP is to help make the Mid Ulster community safer by focusing on the policing and community safety issues that matter most. The Partnership is funded by the Department of Justice (DoJ) and the Northern Ireland Policing Board (NIPB) through the Joint Committee.

To help make our community safer Mid Ulster PCSP will:

- Consult and engage with the local community on the issues of concern in relation to policing and community safety. The Policing Committee has a responsibility to provide views to the relevant district commander and the Policing Board on policing matters.
- Identify and prioritise the particular issues of concern and prepare plans for how these can be tackled.
- Monitor – a Policing Committee comprising the political and independent members will monitor the performance of the police and work to gain the co-operation of the public with the police in preventing crime.
- Deliver a reduction in crime and enhance community safety in their district, directly through their own actions, through the work of their delivery groups or through support for the work of others.

The PCSP consists of Councillors, Independent Members, bodies designated by the NI Assembly, and locally designated bodies. The PCSP will consult, develop and agree local action plans that will be delivered through partnership working and based on local needs.

The Policing Committee is formed from the Councillors and Independent members sitting on the PCSP. The purpose of the Policing Committee is to provide views on policing in their area, monitoring the performance of the Police against the local Policing Plan and ensure the Police deliver against local

priorities and take forward work to gain the co-operation of the public with the police in preventing crime and enhancing community safety within the district. This will complement the work of the wider PCSP that will take forward initiatives to improve community safety in the local area.

Strategic Plan

Mid Ulster PCSP was requested by the Joint Committee (Department of Justice and NI Policing Board) to develop an action plan for 2026-27.

The Joint Committee has agreed three Strategic Priorities for PCSPs

These are:

Strategic Priority 1 – To ensure effective delivery in response to local need, and improve the visibility and recognition of the work of the PCSP through effective consultation, communication and engagement **through:**

- carrying out meaningful engagement in the district with the local community, relevant statutory partners / agencies, businesses and the community & voluntary sector in the development and implementation of PCSP Action Plans;
- ensuring ongoing two-way engagement in the district with the local community, relevant statutory partners / agencies, businesses and the community & voluntary sector to provide a problem-solving forum to identify effective solutions to local issues, ensuring sufficient flexibility to address issues as they emerge, and seeking relevant expertise from the designated organisations as appropriate;
- using a range of platforms, including multi-media, to communicate and promote the work of the PCSP; and
- increasing awareness of the work of the PCSP.

Strategic Priority 2 - To improve community safety by prioritising and addressing local community safety issues, tackling crime and anti-social behaviour **through**

- utilising the partnership created by the statutory, elected and independent/ community membership of the PCSP to initiate and lead work to improve community safety and tackle ASB locally;
- working in partnership to develop outcome and locality focused interventions to address the most pressing crime types and behaviours impacting local community safety, as evidenced by local need, with appropriate targets and indicators so that impacts can be measured;
- drawing on best practice, promote early intervention and collaborating effectively to improve PCSP-supported projects and programmes that address the underlying causes of ASB, crime and the fear of crime in the community, including, where appropriate, a focus on changing behaviours;
- enhancing safety and feelings of safety, in particular for those who might be more vulnerable;
- engaging with partners in the district, to horizon scan in order to respond to and re-direct resources to respond to emerging local community safety issues;
- having cognisance of the Community Safety Framework in developing local plans, and providing a feedback loop to the Community Safety Network* (previously Community Safety Board) on local issues in order to inform community safety policy development – and vice versa; and
- providing comprehensive community input into decision making processes about tackling actual and perceived anti-social behaviour and giving feedback to the community on the effectiveness of interventions on meeting outcomes.

Strategic Priority 3 – To support confidence in policing, including through collaborative problem solving with communities **through**

- ensuring local accountability through the Policing Committee's role in monitoring police performance;
- identifying priorities from the PCSP Plan for consideration in the development of the local Policing Plan which are consistent with the Northern Ireland Policing Plan;
- providing views to the District Commander through the Policing Committee and supporting the PSNI to engage with the community to identify and address local problems;
- delivering initiatives that link to identified local problems that impact confidence in policing;
- carrying out meaningful local events aimed at increasing PSNI engagement with local communities to build and strengthen public confidence in policing;
- delivering PCSP initiatives in the hardest to reach communities;
- providing a platform for the PCSP and PSNI to engage with young people, including on the themes of upholding the rule of law, and of ways of increasing confidence in policing; and
- building community confidence in the rule of law by helping mitigate the harm caused to people and communities by paramilitarism, criminality and organised crime consistent with wider Programme for Government objectives and through use of co-design principles, where appropriate.

1.1 In addressing the three Strategic Priorities and Action Plan, Mid Ulster PCSP took into account the following:

(a) The Community Safety Framework

The purpose of the Community Safety Framework is to ensure effective connectivity between the community safety work of the responsible agencies and provide an operational roadmap on how to collectively deliver the safer community objectives set out in the PfG and Community Plans, whilst providing the mechanism to respond proactively and reactively to operational need.

The Framework can be viewed at:

<https://www.justice-ni.gov.uk/community-safety-framework>

(b) The Draft Northern Ireland Policing Plan 2025-2030

The draft Northern Ireland Policing Plan 2025-2030 is being developed using the principles of Outcomes Based Accountability (OBA). It outlines Outcomes and Indicators which clearly demonstrate improvement in police performance, in line with the draft Programme for Government (PfG).

The draft Policing Plan went out for public consultation on 17 September 2024 with the consultation closing on 10 December 2024. The consultation document which can be accessed via the link below, proposes the following three outcomes and associated indicators for policing over the next five years:

OUTCOME 1:

The PSNI is Victim Focused

Victims of crime will be treated with compassion and respect and kept informed in line with the principles of the Victim's Charter for Northern Ireland. The police will target resources to protect the most vulnerable victims of crime, including repeat victims.

Indicators

- 1.1 The Effectiveness in Tackling Violence against Women and Girls
- 1.2 The Effectiveness in Tackling Domestic Abuse
- 1.3 The Effectiveness in Tackling Child Criminal Exploitation
- 1.4 The Effectiveness in Tackling Hate Crime
- 1.5 Providing a High-Quality Service to Victims

OUTCOME 2:

We Have Safe and Engaged Communities with Confidence in Policing

The police will work with local communities and partners to deliver local solutions to local problems, building confidence in policing and supporting a safe environment for people to live, work, visit, and invest in Northern Ireland.

Indicators

- 2.1 Level of Public Confidence in Policing
- 2.2 People Feel Safe in their Community
- 2.3 The Effectiveness in Tackling the Threat posed by Terrorism, Paramilitaries and Serious and Organised Crime Groups
- 2.4 The Effectiveness in Tackling Repeat Offending
- 2.5 The Effectiveness in Working in Partnership with PCSPs and Local Communities to Provide Solutions to Local Problems
- 2.6 The Effectiveness of Working in Partnership to Reduce Deaths and Serious Injury on our Roads
- 2.7 Working in Partnership to Effectively Tackle Cyber Crime
- 2.8 Delivery of Effective Outcomes for Reported Crimes

OUTCOME 3:

PSNI have a Representative, Valued and Enabled Workforce

Our service should be representative of the community, supported through a positive working environment and appropriately resourced to serve the public with high standards of professionalism and care.

Indicators

- 3.1 Representativeness of the Police Service
- 3.2 Standards of Professionalism and Conduct
- 3.3 Making Best Use of Resources

The work of the PCSPs aligns to Outcome 2. The proposed Policing Plan framework may be amended in line with the outcome of the consultation and PCSPs will be provided with the final Plan once approved.

(c) Criminal Justice Inspection NI report “[Community Safety and Local Policing Arrangements in Northern Ireland](#)”.

In August 2019 the Criminal Justice Inspection Northern Ireland (CJINI) published the findings of the most recent PCSP inspection and made seven recommendations to enhance their profile, governance and operational arrangements.

In March 2024, CJINI published a report “Community Safety and Local Policing Arrangements in Northern Ireland” which included a follow-up review of “Working Together for Safer Communities – A Review of Policing and Community Safety Partnerships in Northern Ireland”. Chapter 4 of this March 2024 report indicates that two recommendations from their August 2019 report were assessed as achieved, four partially achieved and one was not achieved.

[CJINI - Criminal Justice Inspection Northern Ireland - Community Safety and Local Policing Inspection](#)

(d) Public Satisfaction with PCSPs

To gauge public satisfaction with their PCSP, PCSPs may consider conducting a local PCSP Community Survey, or refer to the Northern Ireland Life and Times Survey at www.ark.ac.uk/nilt/

The Northern Ireland Safe Community Survey (NISCS), previously known as the Northern Ireland Crime Survey, may also be used. This is a representative, continuous, personal interview survey of the experiences and perceptions of crime of approximately 4,000 adults living in private households throughout Northern Ireland.

The **Northern Ireland Safe Community Survey** can be accessed from:

(e) Together: Building a United Community

The Northern Ireland Executive's Good Relations Strategy, Together: Building a United Community (T:BUC), which was launched by the First Minister and Deputy First Minister in May 2013, has four key priorities:

- Our Children and Young People;
- Our Shared Community;
- Our Safe Community; and
- Our Cultural Expression.

The (T:BUC) Strategy can be viewed at <https://www.executiveoffice-ni.gov.uk/topics/good-relations-and-social-change/together-building-united-community-tbuc>

(f) The Executive's approach to tackling paramilitary activity, criminality, and organised crime

The Executive Programme on Paramilitarism and Organised Crime (EPPOC) aims to create safer communities, resilient to paramilitarism, criminality, and coercive control. The Programme is jointly funded by the NI Executive and the UK Government and originated from the Fresh Start Agreement in 2015. It currently invests £16 million per year in projects to address paramilitary harm in the present day, as well as projects aimed at breaking the cycle of violence in the future. The Programme delivers through a public health approach to violence in order to address the harm caused by paramilitary groups and organised criminality in our communities. It is an outcome focused programme which addresses harm in the present day and also invests in preventative approaches to build community resilience and building protection around those who are vulnerable.

In September 2024, the Executive agreed to extend the programme for two years, prior to its closure in 2027. The focus for the final two years of the Programme is on embedding and scaling up impactful interventions that have been initiated under the Programme, with an aim to ensure there is longevity for the critical work that remains necessary to tackle the complex and enduring problem of paramilitarism.

Through EPPOC, much more is now known about the factors that make individuals and communities vulnerable to paramilitarism and organised criminality. PCSPs may wish to consider which of these factors are particularly relevant in their areas in order to focus the content of action plans.

[View the *Ending the Harm* website which contains public awareness campaign materials and information, news and research from the Programme](#)

The Executive Office's Communities in Transition (CiT) Project is a key component to the Community Resilience objectives under EPPOC.

CiT was established in Phase 1 of EPPOC to deliver the following action: “The Executive should establish a fund to support ambitious initiatives aimed at building capacity in communities in transition, including through developing partnerships across civil society and across community divisions.”

CiT’s community safety specifications include a requirement that delivery partners must engage with the local PCSP, including in the circumstance where there is a new contract with an onus also placed on the CiT team to maintain regular contact with PCSPs as project proposals come through.

The expectation and request is that there is two-way communication on a regular basis between PCSPs and TEO CiT teams, with PCSPs requested to engage with TEO CiT teams in their area regarding possible community safety interventions to ensure complementarity and avoid possible duplication.

Equally, it will be important for PCSPs to engage with all EPPOC Community Resilience projects as there are many other projects (for example, under Department for Communities) also operating in this space.

(g) Community Planning

The Criminal Justice Inspection NI report “PCSPs, A review of governance, delivery and outcomes” recommended that the Community Plan should be the focal point for delivery of the long-term aims of the PCSP and that the action plans of the PCSPs should feed into the Community Plan.

As part of the community planning process, each council area has provided an assurance that PCSPs will be considered as the key delivery mechanism for community safety actions within community plans. Accordingly, actions within the PCSP action plans should align with community safety actions within the community plan.

(h) Relevant Community Safety themes for inclusion

In addition to taking account of the three strategic priorities set by Joint Committee there are six themes Joint Committee require be addressed within PCSP Action Plans as detailed below. Where these themes are not addressed in Action Plans, PCSPs must provide clear evidence regarding why they are not being covered.

These remain the same as in 2023-2024 and 2024-2025 and are as follows:

- 1. ASB**
- 2. Drugs and alcohol abuse**
- 3. Hate Crime**
- 4. Domestic and sexual abuse**
- 5. Cyber Crime**
- 6. Vulnerability to organised crime (including paramilitary linked criminality)**

Action Plan

Mid Ulster PCSP undertook a review of their current Policing and Community Safety Action Plan for the Mid Ulster District Council Area.

This exercise was undertaken to ensure that the priorities identified continue to reflect priority policing and community safety issues in the area and was informed by analysis of information provided by statutory partners, as well as the results of ongoing district wide engagement and consultation on policing and community safety across the council area.

A Turning the Curve Exercise was undertaken in relation to the current PCSP Action Plan Indicators/themes to formulate the partnership's best thinking on projects and initiatives to contribute towards the overall outcome. When developing the 2026-27 action plan, the PCSP reviewed current projects to determine if they were effective and should be continued in the new action plan

To deliver on the strategic objectives the PCSP has developed an action plan with three strands:

Strategic Priority 1 – To ensure effective delivery in response to local need, and improve the visibility and recognition of the work of the PCSP through effective consultation, communication and engagement

Strategic Priority 2 - To improve community safety by prioritising and addressing local community safety issues, tackling crime and anti-social behaviour

Strategic Priority 3 – To support confidence in policing, including through collaborative problem solving with communities
